DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

- (b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.
- 2. Claims 1-20 are rejected under 35 U.S.C. 102(b) as being anticipated by Norbury et al, US 5,013,473.

Norbury et al teach microcapsules in cosmetic products (see abstract). An example of such a composition is a cleansing cream comprising a microcapsule containing mineral oil and a styrene-isoprene-styrene block copolymer which is encapsulated in a urea-formaldehyde capsule (cols. 6-10, examples 1, 6, and 19). With respect to the present capsules being transparent, as the capsules of Norbury et al are identical to those claimed, the examiner maintains the capsules of Norbury are inherently transparent. As this reference meets all material limitations of the claims at hand, the reference is anticipatory.
